TOPIC 10.5: Teacher professionalism

Day of visit Friday

Date of visit 2nd October, 2026

Activity 10.5.1

SRJ Task: Observation and recording (audio/video) of some teachers' behaviours, attitudes, knowledge and practices in the classroom and the wider school life

Comments on diverse behaviours of teachers you observed

Most teachers were punctual, neatly dressed and respectful to colleagues. Some used questions, group work, and teaching materials to engage pupils, while others relied on chalk-and-talk. Many were patient and encouraging, but a few shouted or used cane to control noisy classes. Well-prepared, friendly teachers had a good ch

What were your challenges during activity 10.5.1?

1. Some teachers felt uneasy being observed.
2. Large, noisy classes made it hard to see and hear.
3. Limited time and some teachers did not allow recording

Activity 10.5.2:

Playback of recorded and online audios/videos of expected behaviours, attitudes, knowledge and practices of a professional teacher

State at least three (3) acceptable teacher qualities that were not identified in activity 7.5.2

1. Punctuality: models discipline and protects learning time
2. Patience: Stay calm and support slow learners
3. Creativity: Uses simple local materials to make lessons clear.

In your opinion, how would an unacceptable behaviour observed from the playback influence the teachers' work?

Unacceptable behaviour, such as shouting, laziness or favouritism, harms a teacher's work. Pupils loose respect and trust. So they become afraid, shy or disruptive. Learning time is wasted and results drop. It also damages the teachers reputation and the School's image. Seeing such behaviour on playback help a teacher notice mistakes early and correct them.

Activity 10.5.3: Hold reflective/feedback sessions to consolidate understanding of teacher professionalism

Identify several professional traits you found interesting which you will focus on in your professional practices and give reasons.

1. Punctuality
2. Patience
3. Good preparation
4. Respect and fairness
5. Creativity

TOPIC 10.6: Development of professional teaching Portfolio

Day of visit Wednesday

Date of visit 7th October, 2026

Activity 10.6.1

SRJ Task: Discussion and review of personal teaching philosophy with tutors, mentors and STS partner

Record your reviewed personal teaching philosophy statement taking a clue from the discussions you have had with your STS partner and mentor on beliefs and values in teaching and learning.

I believe every child can learn when the teacher is patient, prepared and fair. I will use active methods like group work and role-play, and model respect, honesty and discipline. I will use simple local materials to teach well despite large classes and limited resources and I will keep reflecting on feedback to improve.

Identify the similarities and differences between your Year One and reviewed personal teaching philosophy statements and give reasons for the differences.

SIMILARITIES: Both stress that all pupils can learn and that teachers must be caring, respectful and prepared

DIFFERENCES: The reviewed statement is based on real classroom experience, and it adds active methods, coping with limited resources and reflection

REASON: My school attachment and the guidance of my mentor and STS Partners

Activity 10.6.2
